OUR SOLUTION FOR TELECOMMUNICATIONS TECHNOLOGY

Dear madams and sirs,

for many years, you've come to value the products and solutions provided by Gossen Metrawatt GmbH as reliable, safe, top-quality measuring and test technology in the field of electrical safety for industry, the commercial trades and the public sector.

We're thus all the more pleased to inform you today that, in addition to our time-tested solutions from GOSSEN METRAWATT, CAMILLE BAUER and RIGEL MEDICAL, we'll also be able to offer you products from KURTH ELECTRONIC as part of our portfolio as of the 1st of July, 2023.

Kurth Electronic GmbH has been a part of the GMC-Instruments Group since 2016 and will be merged into Gossen Metrawatt GmbH, with all rights and obligations, on the 30th of June, 2023. This merger will make it possible for us to offer you an even broader portfolio covering all aspects of measuring and test technology in the future.

We're convinced that this consolidation will bundle the strengths of both companies, so that we can continue to offer you innovative, state-of-the-art measuring and test technology for your future requirements.

Kurth Electronic's products will still be available through your usual distribution channels.

Please contact us with any further questions.

Sincerely yours,
Gossen Metrawatt GmbH
